English Bay Tier II Moose Hunt Reopens

Homer – The Tier II hunt for moose, TM549, in the Port Graham-English Bay area south of Kachemak Bay will reopen for the four permit holders that have 2005 permits. The emergency opening will be from September 27-30. Summer fishing closures have increased the urgency that the permit holders have an extended period to hunt for moose locally. This is a low-density moose area that cannot sustain a large harvest. All other moose hunts in Unit 15 are unaffected by the emergency order.
